

2023-2024 Rockets Online Campus Parent Survey

Categorized Summary of the Parent’s Comments regarding what is going well for their child while attending the Rockets Online Campus?

Flexibility:

- Students can adjust their learning pace based on their understanding of the material.
- Flexibility in scheduling allows students to balance school with other activities or responsibilities.
- Customizable workload accommodates students with varying learning speeds and preferences.
- Differentiated instruction meets the diverse needs of learners, ensuring everyone can thrive.
- Freedom to explore topics of interest outside the standard curriculum fosters curiosity and passion for learning.

Supportive Environment:

- Teachers provide personalized feedback and guidance to help students overcome challenges.
- Availability of support services like counseling or academic advising ensures holistic support for student well-being.
- Peer support networks within the online platform create a sense of community and belonging.
- Open communication channels between parents, students, and educators facilitate collaboration and problem-solving.
- Recognition of students' individual strengths and achievements boosts confidence and motivation.

Simplified Lessons:

- Clear learning objectives and instructions make it easy for students to understand what is expected of them.
- Streamlined content delivery minimizes distractions and promotes focused learning.
- Multimedia resources, such as videos or interactive simulations, enhance comprehension and engagement.
- Scaffolded learning activities gradually build upon previous knowledge, fostering mastery over time.
- Integration of real-world examples and applications deepens understanding and relevance of concepts.

Positive Learning Experience:

- Engaging and interactive learning activities capture students' interest and foster a love for learning.
- Opportunities for hands-on exploration and experimentation cultivate critical thinking and problem-solving skills.
- Celebrations of student achievements and milestones reinforce a growth mindset and sense of accomplishment.
- Regular feedback and assessment inform instruction and support continuous improvement.
- Varied instructional strategies cater to diverse learning preferences and styles, ensuring all students can succeed.

Access to Resources:

- Comprehensive digital libraries and databases offer a wealth of information and research materials.
- Collaboration tools facilitate group projects and peer learning experiences.
- Virtual labs and simulations provide immersive, experiential learning opportunities in STEM subjects.
- Career exploration tools and resources support informed decision-making about future educational and professional pathways.
- Integration of assistive technologies and accommodations ensures accessibility for students with diverse needs.

Personalized Learning:

- Adaptive learning tailor content and pacing to each student's individual abilities and learning trajectory.
- Student choice and autonomy empower learners to pursue their interests and passions within the curriculum.
- Personal learning plans outline goals, strategies, and progress tracking for each student.
- Flexible pathways allow students to explore interdisciplinary connections and pursue personalized learning projects.
- Opportunities for self-reflection and goal-setting foster metacognitive skills and self-directed learning habits.

Ease of Use:

- Intuitive user interfaces and navigation tools make it easy for students to access course materials and resources.
- Responsive technical support teams address issues promptly, minimizing disruptions to learning.
- Clear communication channels ensure students and parents can easily reach out to teachers and administrators.
- Friendly platform enables learning anytime, anywhere, catering to students' diverse lifestyles and preferences.

Individual Parent Comments Regarding the Rockets Online Campus.

- Just keep up the great work you all do for the students and parents
- You guys are a great help when needed
- We love this program and the staff!
- We are very happy to do the Rockets program. It is a way for my son to learn and not get into trouble with the other students.
- I appreciate the efforts you put into these kids. Keep them up
- You guys have been amazing. Thank you for everything!
- The teachers are extremely attentive and fast with a response. My son communicates very well with the teachers.
